e-Bicycle

Electric bicycles are revolutionizing transportation in India, reshaping the way people move and paving the way for a greener future. With concerns about pollution, traffic congestion, and rising fuel costs, electric bicycles offer a sustainable alternative that is gaining rapid popularity.

TI Cycles of India, a prominent player in the Indian Cycling Industry, are poised to play a pivotal role in shaping the way people commute and interact with their environment.

As TI Cycles, we have embraced this transformative trend by integrating electric technology into our renowned brands, like BSA and Montra. By doing so, we as TI Cycles are spearheading the shift towards eco-friendly transportation solutions, emitting zero emissions and reducing carbon footprints.

MONTRA

TECHNO

Montra Techno is not just an electric bike; it's a statement, a fusion of style and functionality designed to revolutionize the daily commute. Its lightweight frame, engineered for agility, effortlessly weaves through the bustling streets and narrow alleys of cities, offering commuters a seamless journey. Powered by clean energy, it offers a guilt-free alternative to traditional modes of transportation, reducing carbon emissions and paving the way for a greener, more sustainable future.

LEISURE
