Currently, TI Cycles is the key player in the 'Specials' segment with a nationwide presence bolstered by a network of around 11,500 primary and secondary dealers, zonal offices and warehouses. The company's plants in Chennai and Rajpura possess the capacity to manufacture five million bicycles a year.

The past seven decades have witnessed TI Cycles evolve into a powerhouse that's constantly making headway to meet the consumer's needs, from innovative products to futuristic design to unique retail formats.

BSA LADYBIRD

History was made in 1994 when BSA launched Ladybird. It was the first Indian designer cycle for girls, and has evolved into the market leader in the category.

In a time and age where girls across the country are asked to abide by the society's rules and conventions, Ladybird is redefining girlhood by challenging Indian girls to break free from the norms and follow their heart.

Ladybird is delighted to have completed 25 years of giving wings to the countless dreams of girls and reminding them to live life their own way rather than living up to others' expectations.
